EDUCATION

NZQA Level 6 Certificate in Applied Software Development
Dev Academy Aotearoa, 2024
17-week full-stack programme: TypeScript, React, Node.js, TDD; collaborative team projects.

Bachelor's Degree in Information & Logistics
Technical University of Liberec, Czech Republic, 2008

CERTIFICATIONS

REST with Spring
Baeldung 2019

ISTQB Foundation Certificate in Software Testing
ANZTB 2013

Lean Testing, Intro to DevOps, Mentoring Testers
Assurity 2016

Fundamental Training in Security Testing
Kiwicon 2014

Java & Cucumber Fundamentals for Testers
Orion Health 2013

Team Accelerator Workshop (BELBIN)
Trimble 2020

ABOUT ME

I'm a Software Engineer specialising in Java, back-end development and API integration, with hands-on full-stack, test automation and CI/CD experience. I work with Spring, Quarkus, TypeScript and React across web, Android, desktop and SaaS products. My testing background helps me diagnose complex problems and build reliable, maintainable software.

EXPERIENCE

Test Automation Engineer (Contract)

Te Wānanga o Aotearoa (via AFOR) — 2025 – present

- Develop and maintain automated tests across student and teacher portals and Salesforce integrations.
- Investigate API, workflow and data issues with developers and testers, maintaining regression coverage as applications evolve.
- Support performance and accessibility testing.

Skill & Technology: Salesforce, Apex, JavaScript/TypeScript, REST APIs, CI/CD, Azure DevOps.

Software Developer (Contract)

AFOR Automation (part-time) — Current contract

- Convert a custom Java/Selenium test reporter to TypeScript for use with Playwright.

Skills & Technologies: TypeScript, Playwright, Java, Selenium, GitHub, npmjs.org.

Full Stack Developer (Contract)

HamiltonJet – Christchurch, NZ — Mar 2025 – Jul 2026

- Sole developer maintaining and extending an enterprise scheduling application using Java 21 and Quarkus.
- Developed back-end features and M3 ERP API integrations, improving authentication, error handling and resilience.
- Improved JSF/PrimeFaces workflows, performance and application stability while addressing technical debt.
- Developed unit, integration and end-to-end tests using the unit-test framework, including mocks and external API tests.
- Worked with stakeholders on requirements, bug fixes and security; maintained Jenkins builds, Docker configuration and technical documentation.

Skills & Technologies: Java 21, Quarkus, JSF, PrimeFaces, MSSQL, REST APIs, Maven, Git, Jira, M3 ERP.

Support & Test Consultant (Contract)

SharpMind Games – Christchurch, NZ — Mar 2024 – May 2024

Supported web games, tested game logic and introduced Jira test management.

DANIEL MLADEK

SOFTWARE ENGINEER

TECH SKILLS

- Java: Spring Boot, Quarkus, JAX-RS, Hibernate, JPA, J2EE
- Web: JavaScript/TypeScript, React, Node.js, Express
- Databases: MSSQL, MySQL, Oracle
- Scripting: Shell/Bash, Python, Groovy
- Cloud: AWS, Azure
- CI/CD: Jenkins, GitHub Actions, Docker, Kubernetes, Octopus
- VCS: Git, SVN, CVS, Gerrit
- Virtualisation: VirtualBox, VMware ESXi, Hyper-V
- OS: Linux, macOS, Solaris, Windows, WSL
- Networking: TCP/IP, DNS, DHCP, FTP
- Testing: Selenium, Playwright, JUnit, Mockito, EasyMock, Vitest, Cucumber/Gherkin
- Delivery: Agile, Scrum, Kanban, TDD, BDD

HUMAN SKILLS

- Team collaboration
- Clear communication
- Active listening
- Conflict resolution
- Mentoring and knowledge sharing

ADDITIONAL

- NZ & EU citizen
- Driver's licence
- First Aid & CPR certification

INTERESTS

- Camping and hiking with family
- Coaching children at NBSLSC
- Kitesurfing, mountain biking, DIY

EXPERIENCE CONTINUED

Java Developer

Fusion5 NZ – Christchurch, NZ — November 2022 – February 2024

- Developed APIs for payroll and HR data integration, enhancing the Jemini system's back-end.
- Implemented RESTful web services (JAX-RS) and crafted JPA queries.
- Occasionally supported front-end development using ZK OSS Ajax WebApp Framework.

Skills & Technologies: GitHub, Azure, MS SQL Server, Java 11, Spring, JPA, Hibernate, Postman.

Java Developer

Trimble NZ – Christchurch, NZ — June 2019 – October 2022

- Developed licensing and identity APIs for system integration using Java and Spring Boot.
- Worked across AngularJS/Vue front ends and Spring back ends, using TDD for REST APIs.
- Automated Jenkins builds and deployments to AWS using Docker and Kubernetes.

Skills & Technologies: Java, Spring Boot, Hibernate, JMS, Git, AWS, Jenkins, Octopus, SQL, Postman.

Android Platform Build & Test Engineer

Trimble NZ – Christchurch, NZ — April 2018 – June 2019

- Migrated dispersed build jobs into Jenkins Pipelines, improving efficiency.
- Set up virtual and physical servers tailored to project needs and established local clones of large Android OS repositories.
- Established test processes to ensure Android compatibility standards were met.

Skills & Techs: Git, Gerrit, Jenkins (Pipelines, Groovy), Shell scripting, ADB tools.

Test Integration Engineer (Contract)

STATS NZ – Christchurch, NZ — July 2017 – Feb 2018

- Contributed to NZ's 1st online Census, ensuring system stability and scalability.
- Developed automation tools and led testing for the mail data process, supporting online/offline participation.
- Extensive use of Salesforce and DataLoader for integration and load testing.

Skills & Technologies: GitHub, Jenkins, DataLoader, Salesforce, Python, MSSQL, MuleSoft API.

Software Test & Build Engineer

Orion Health – Christchurch, NZ — May 2011 – May 2017

- Developed CI/CD pipelines, automating acceptance tests with Selenium.
- Managed test environments, performed code reviews, and collaborated closely with development teams.

Software Tester

Emendo – Christchurch, NZ — August 2009 – April 2011

- Created and executed test strategies for CapPlan software.
- Managed bug documentation and supported Agile workflows.

J2EE Developer & Test Analyst / Team Lead

The Czech Insurance Company – Prague, CZ — January 2005 – December 2008

- Designed test plans for TIA SW, developed banking integration interfaces.
- Integrated web services using Java technologies (SOAP, XML, XSLT).

QA Engineer for NetBeans IDE

Sun Microsystems – Prague, CZ — February 2000 – September 2004

- Conducted automated and manual testing of NetBeans IDE.
- Fix bugs, maintained QA lab environments.
